

# Vehicle Disposal Program

**smart  
group**  
corporation

## Rest easy with our **convenient vehicle disposal service.**

### In a nutshell:

One upfront payment covers a professional vehicle disposal service. We do all the legwork to ensure a smooth transition into your new car. For full details regarding the benefits of the Vehicle Disposal Program, please see the terms and conditions available at [smartgroup.com.au/VDP-Terms](https://smartgroup.com.au/VDP-Terms)

What's covered	Benefit	Need to know
End-to-end vehicle sales service	You are in control - coordinate the sale of your current vehicle with the pick-up of your new vehicle.	Convenience and peace of mind.
Inspection service	The program includes an inspection service that comes to you and includes professional photos of your vehicle and a vehicle inspection report.	Available nationally.
DIY inspection service	Where it is not reasonably practicable for you to rely on or utilise the standard inspection service (above), you may be eligible to perform a DIY vehicle inspection.	Available nationally to eligible members. <sup>1</sup>
Concierge service	You will receive concierge service throughout the selling process, including vetting of prospective buyers, managing prospective buyer expectations, and regular updates provided to you.	You are up to date with what happens throughout the entire disposal process.
Fixed price or auction	Your vehicle will be tendered out through a panel of disposal partners. The confirmed price offered will be fixed for a period of time. <sup>2</sup> There is an auction process available as well.	You make the final decision around price acceptance.
Free listing	There are no listing fees charged to you as part of listing your vehicle with our preferred auction houses or vehicle re-sellers (as nominated by us, from time to time).	All included as part of the program.
Membership extension	If you extend the lease or refinance a loan which your vehicle is subject to, the membership term extends to your new lease or loan expiry date (as applicable). <sup>3</sup>	Should you extend your existing lease or loan, you keep the benefit for no additional cost.
Transportation services	Transportation services can be arranged and provided by third party transport companies in connection with the disposal of your vehicle. <sup>4</sup>	Convenience and peace of mind where you don't have a transportation method for the disposal of your vehicle.
Continued use	Unlike standard auction practices or the limitations with private vehicle sales, you can continue to drive your vehicle unrestricted during the disposal process.	You won't be inconvenienced by having no or limited access to your vehicle during disposal.
Sustainability	Reduce carbon emissions by avoiding unnecessary transport to an auction yard.	A convenient disposal method with green benefits.
