

This is Smartgroup

Award-winning employee remuneration benefits and workforce optimisation

Established in 2001, Smartgroup has grown from the leading salary packaging brand, Smartsalary, to become an award-winning, ASX-listed company widely recognised for our customer centricity and bar-raising innovation.

We partner with organisations across Australia to deliver meaningful, easy-to-access employee benefits, including salary packaging, novated leasing and payroll services; as well as cost savings through innovative fleet management and unique hospital workforce modelling software.

Central to this is our commitment to providing our customers with exceptional experiences. We are therefore continually striving to reduce unnecessary processes and maintain flexibility so we can respond quickly to opportunities and challenges.
